Evaluate only the TA (s) with whom you attended discussion section and/or office hours.

Pretty good, answered questions, no issues with him

He was very helpful and had the desire to help us all understand the material. He made sure to go over any questions we had.

Very helpful and clear in explaining challenging topics during discussion and office hours.

William Volckmann was helpful and responsive to questions and difficulties.

He is responsible and helpful. The class is clear and organized.

Excellent

ok

informative

He is really cool and makes sure everybody feels comfortable with him. He also takes in consideration the fact that some of us might be really tired and doesn't put too much pressure on us. I like him.

William Volckmann

I think the TA did a good job but if allowed to do more and make the discussion more interactive it would have been a lot better.

This TA is the best TA I ever had at UC Davis. He will go beyond what he is required in order to make the students successful. He will answer e-mails even on the weekends, and is extremely helpful in answering all questions. I wish I had him as a TA for all my economics classes.

It was really helpful

Best TA!!!

William is one of the best TA's I have had.

William was a really great TA. He was very approachable if I had any questions. He showed that he cared about the students learning because he was really flexible with meeting after office hours if I still didn't understand something on the homework. His discussion was very helpful because he would go into detail on what is expected and how to work on the problems.

William, Ezqi and Kalyani.

great

Very clear, easy to understand. Went over homework well.

He is really good at explaining material.

Great. Showed us how to do the problem step by step when we needed help.

Your beard is awesome dude, and you were a great help with R. The website was a great tool.

William is a great TA, he is very helpful and approachable as well as very knowledgeable about the topics covered.

William is a very helpful TA who goes beyond his responsibilities as a TA and provides the students with extra resources on his website, such as practice exams and extended explanations on difficult economic concepts.

Nice and helpful!

He was always available for questions and constantly clarified confusing information that was taught during class.

This TA was very concise.

I really like him!

was more helpful than lectures

His discussions were always helpful and interesting. The examples he performed were very good as continuations from the lectures

Excellent with teaching the material
Approachable

no

Will is an amazing T.A. who went out of his way to help me and other students really understand the material. Thanks!

Very nice Person. Very clear tutoring.

Very clean explanations

Very clear. And very willing to solve the problems for us. He is also very humble, when he thinks we do not understand him, he will change another to explain to us. His website of courses resources is very helpful.

I went to Kepler's section, the best TA I've ever had

Mr. Vlockmann has been as excellent a TA as I could possibly ask for. Ms. Lovchikova was also an excellent TA, although I personally found Volckmann's approach more effective.

He is excellent on explaining the solution in a clear way. He helps me a lot in both Office hour and discussion!

good and professional

The TA is very prepared and highly knowledgeable. He is very professional and reads the class well. He incentivized attendance very well.

He is excellent. He will prepare the topics that he think that is important to us prepare the exam.

none

William was a really great TA. Section was very useful for me because he explained in much depth what the material was really getting at. Another thing that I especially appreciated was how he would always ask if anyone had any questions (Professor Cameron rarely did that). He would be happy to clarify and explain again and again until the idea was really drilled into us. His teaching style also really helped because he would explain things (especially the math) in a way that made it easy for anyone to understand. Would not be able to succeed in this course if it wasn't for him. Thanks Will! -Tyler

William is one of the best TAs I have had. He goes above and beyond to help students.

Best TA ever, explained everything clearly and treated students fair.

Ok...

Very helpful in thoroughly explaining topics that the professor did not. He is witty and personable in sections and addresses problems brought up by the students. Wouldve preferred him as a professor.

yes

William is an excellent TA that is definitely a talented teacher. His dedication and hard work really benefitted all of us in understanding this material.

Will was an excellent TA who was great at answering questions, very organized, patient, approachable, and helpful!!

Make him the instructor for this course! Organized, clear, and understands what students struggle with so he heavily focuses on their problems and tries to fix it.

I didn't attend discussion so I can't evaluate the TA

William is one of the best TA's I've had. I looked forward to going to his discussion because he summed the course in a manner that made it much more understandable. Many of his discussions were useful for both the homework and the exam.

Great TA, responsive to questions

Insanely helpful

William Volckmann.

:)

He is patient! Like him!

Receptive and very clear in explaining.

Personally, he is the best TA in this course.

William

you can learn a lot from William's discussions. He summarizes and consolidates knowledge talked about in class in a pretty clear way. He can always explain things explicitly.

William is a great TA! Went to all of his office hours and he helped us understand the complicated HW

very good

Ok

william

Volkhamm

Attended his discussion section because it was very helpful and i feel like my grade improved and stayed above average because I attended his discussion section

I went to William's discussion session, and he was a great TA. He will give us hints for homework problems and additional problems to help us understand the material better.

William Volckmann

Goes over questions too quickly, but can explain things well when he slows down.

Teeples, Keisuke was amazing. Went to his discussions as well as William and received great help. They should teach the class as their english and speaking ability surpasses the professor.

William is excellent.

Excellent instructor!!! He has a great understanding of the material and is able to effectively explain it to his students. His office hours were extremely helpful and he is super responsive to students' problems and questions.

Very responsive to emails, and always willing to help.

Nice and clear teaching style

William was a fantastic TA. He had very clear explanations for every topic and was more than willing to help out students struggling with the material. He was also very quick to respond to emails and approachable in discussion. I have nothing but good things to say about how he taught his students.

very nice, very generous

-

Super knowledgeable and helpful.

"William changed my life." - New York Times

"Best TA out there." - Washington Post

"He taught me finance when no one else could." - The Economist

"You would be lucky to meet William." - The Wallstreet Journal

"William is the hero we all needed." - Tony Stark

William really breaks down the problems step by step and does a great job of explaining everything. He is easy to ask any questions in discussion.

William might be the best TA I've had at UC Davis. He has excellent control over his discussion section. He also provides valuable resources on his website. Overall 10/10

Great understanding of material and puts it in layman terms for those like myself who don't understand the information on the first hearing.

Very helpful in reviewing necessary topics.

good

William

I was able to understand the material of the course because of William, i would not have been able to do anything in this class without his help. He summarizes the information efficiently and explains it in detail and clearly.

He is really nice and absolutely answer my questions in homework and lectures

Fantastic TA. Lucky to have him.

This man deserves a raise.

Makes use of every minute, is thoroughly prepared for every discussion.

N/A

great

William was my TA and I thought he did a great job. His explanations were very clear and helped me understand the content really well. I liked how he also did a recap of the lecture material and then did practice problems. I think that format worked very well. He also always allowed time for us to ask questions. I would rate his discussions 10/10. He should become a professor.

Both William and Zane are great TAs. Extremely knowledgeable in the subject.

He had discussed the concepts pretty well.

Teach the class bro

Best TA ever! William's discussion sections, office hours, and handouts were extremely helpful throughout the quarter.

Excellent presentation during discussions. Great job explaining difficult concepts.

William took time and dedication to teach us. Great TA!

He is an excellent TA for all perspectives

TA William was so kind and he is willing to help students with material I don't get. He puts a lot of effort for the discussion class and came with a lot of practice questions that help me.

He explained very well and helped a lot

Discussion with William is pretty interesting and detailed. Thank you!

Very responsive and helpful!

William

The TA was very helpful during office hours and made the material that I learned from lectures more understandable and clear during the discussion sections.

William is awesome.

His quick responses to my questions were always helpful, and he is very thoughtful!

TA William has been a great help to my studies throughout this class. He is very knowledgeable and explains all concepts in a very elaborative manner. It is easy to understand his explanations and his clear and straightforward way of teaching helps a lot during discussion.

Clear and helpful

William Vockmann

William Volckmann

He is very smart, nice, relaxing, and understanding. It is the first time I felt as if my TA could be a friend, or someone I can trust. The discussion sections were fun to attend.

N/A

I appreciated how he covered lecture material during the lab, and the way he explained things clearly whenever a student or myself asked a question.

Excellent, knowledgeable, caring, patient, and helpful.

William is really the best TA ever. He is very accessible from email and office hours. He makes the things clear and gives me confidence to overcome this situation. I can see that he put effort into preparing the material for the discussion.

Yes

Great TA William is, he knows the material very well and just helps in any way he can

In my opinion, William's teaching is a lot better than the professor. William explains the questions really well during both the discussions and office hours. I feel like I learn more from William rather than the professor.

I had William as my TA and I think he is very helpful especially with the homework assignments. I think I would not have done as well on the homework if I did not get help during office hours.

I found William to be a very helpful TA that always helped clarify the course material.

William Volckmann

Very clear and concise, often time easier to understand than the professor-- in providing a direction in which this class would be heading

William is a very good TA and great communication skills for us youngsters to understand.

William Volckmann was an amazing TA who helped to clarify material and answered questions in a very clear manner. He was definitely more useful than the professor!

TA William was my assigned TA for section and he was excellent. He was very knowledgeable in course material and very helpful when answering questions. William is funny and interesting, and makes an effort to engage with students. It was much easier to learn from William than it was to learn from Professor Cameron. I also attended TA Max's office hours and he was very knowledgeable as well and very helpful in answering questions.

Good TA who is patient and explains everything clearly.

William was super helpful and a great resource for understanding the material. The quizzes were the most difficult part of the course, but William created very detailed/helpful slides going over the practice quizzes.

William is the best!!!! Really appreciate your effort so far.

This TA was amazing!! My friend who is in this class but had another TA would only attend William's discussion sections because they were so much more helpful. He would go too fast for me in discussion so I would watch the recorded lectures and pause them but they were so helpful. The discussion section always wrapped up the material of the week. He was fabulous.

You put a huge amount of effort into this class, more than any other TA I have had thus far at Davis. Great work!

The best economics TA I've had.

N/A

Knew what he was talking about and made effort to help students, awesome beard

Very clearly explained and walked through problems. Explained step by step as well as answered questions throughout discussion

great at explaining the material

good

William is just amazing. He is great, cares about what we learn and how we learn, and is very clear in his explanations. His discussion notes helped me learn much better and efficiently the material in class. He can clear doubts very easily and is super approachable. He is the best Economics TA I ever had. Just excellent in all aspects of a TA and has everything a TA should have. He will make an amazing professor one day.

William is by far the absolute best TA I have ever had the chance to have while in my undergrad. He is kind, helpful, and most of all very responsive. Will's help is a key reason in my success in the course and I can not express how amazing he has been. I think all TA's can learn something from Will.

They were great! They executed discussions very well.

William was legit the GOAT of this course. If you had to go and ask for help on the course, he had the best solutions and better teaching mechanisms, going step by step and ensuring you understand it. The best part of it was William was like more like a bro TA who cared and ensure we understood the material. I'm glad I had him as a TA before I graduate.

Yes

n/a

Great! I like his teaching style.

William was very helpful and the materials he prepared for sections were fantastic. His materials helped me most in preparing for exams. He was also very available to help me when I had questions.

Please provide additional information and/or elaborate on any aspect of your evaluation. These comments are often the most valuable part of your evaluation. Every comment will be read!

For some parts, he is more specific and clearer than the instructor.

I appreciated the fact that you took notice of the fact that we were struggling with the multiple choice section of the midterm and created review sheets that addressed these issues. The review sheets helped me score better on the multiple choice section of the second midterm.

He was always helpful during discussion

He is a great guy!

Overall, William is very knowledgeable and explains concepts well. However, he is very little help with logistical issues—usually his only advice is telling us to ask the professor. The group work, as recommended/forced by Professor Russ, at the beginning of the quarter was awkward and not useful, so I am glad we moved away from that. Doing homework problems is helpful, as are the exam-type multiple choice questions.

William's discussion was more helpful than the lecture was.

William was open to questions and very helpful with explaining difficult concepts.

You are very clear when explaining topics/questions but when you state multiple choice answers you kind of skim past them. Thank you for being a great TA!

Good at explaining

You are doing fine, just make things go a little faster

great class

Great TA, simplifies and breakdowns topics from lecture successfully. Emphasizes key points and is always prepared with examples to demonstrate in class.

I wish there was more examples for every topic

William is very helpful, patient, & clear. He really takes the time to explain concepts in detail & explains things in different ways until I understand. He is also very responsive to emails/questions, and it's obvious that he cares about us! Thank you for a great quarter, William!

I hope to have William as a TA in another course I take. He was really helpful.

William is bright and remarkable TA. He is punctual, informative and most importantly understands his materials and how to portray them correctly. Ezqi, was helpful during office hours and attempted to cross learning opportunities, but not very responsive over emails. Kalyani too was helpful but not very responsive.

nothing

The separate TA website helped.

TA is very helpful and provides his own website as a source to study.

He has his own website which was also super helpful.

Mentioned above.

He goes over things way too fast. I recommend going over material a bit more slow and more in depth, really making sure that the students understand.

I really appreciate how William took the time to post his discussion material online. That was very helpful! Thank you!

I appreciated how hard he tried and his sense of humor because he knew a lot of us didn't want to be there but he tried to teach us anyways.

Nice and helpful!

William is the best ta I've had in a long time. He is extremely knowledgeable and is always prepared for discussion and he makes the information easy to understand.

The TA did a really great job answering questions via email.

He was very knowledgeable on the information presented, and taught the information during discussion in an effective way. The notes during lecture were sometimes confusing, so he taught it in a different way and it was extremely helpful.

Although the material was introduced in class, I was able to actually understand the material after going to discussion.

no

The TA was always sufficiently prepared for discussion section meetings and covered thought provoking examples that helped me grasp the material and more intuitively understand relationships between macroeconomic variables. The TA should be highly praised for providing numerous packets of extra study material and well-commented homework solutions. The extra problems provided demonstrate that the TA is willing to go above and beyond to help students learn and practice the material covered. Overall, the TA excellently organized discussion sections and his extra efforts to explain material and provide example problems significantly improved my ability to solve homework and exam problems and comprehend macroeconomic theory.

Hands down the BEST TA I have ever had! He teaches concepts so thoroughly and really cares about the students. I sent him a thousand emails and he responded to all of them quickly. When I would not be able to go to his office hours, he worked around my schedule to be with me. He has such a good heart and so much patience!

REPEAT COMMENT, BUT IMPORTANT: I absolutely loved taking this class with Professor Modjtahedi and his T.A. and found that they taught this course in a way-easier to understand way compared to when I first took this course a quarter or two ago. However, with this said, I've been very concerned over Modjtahedi's grading system from day one and think that this should be reviewed by the school board. The way he grades sets all the students against each other, making it harder to find other students to work/ study with. We no longer have to strive to reach a certain percentage to then earn a grade instead we must do better than other students to reach a certain ranking. Meaning that even if I earn an A, if everyone in the class was better than me, I'd still receive an F. This is set up where some people in the class are destined to fail, and I don't think this is fair.

Very clear. And very willing to solve the problems for us. He is also very humble, when he thinks we do not understand him, he will change another to explain to us. His website of courses resources is very helpful.

Definitely one of the best TA's in the economics department. His sections have helped me tremendously. William is a fair grader and very helpful.

Mr. Volckmann and Ms. Lovchikova were excellent TAs. Approachable and well informed, I have no complaints with regards to either. I never attended Mr. Illich's office hours so I have no perspective on his teaching abilities.

He is excellent as a TA

interesting course!

William Volckmann is a very helpful TA: he explained the topics very clear, and he was patient when answering questions.

William was one of the best TAs that I have ever had. I firmly believe that he was the only reason that I enjoyed and did well in this class.

The TA really helped for me to understand the material and attending discussion really helped me understand the class better.

Great TA. He puts extra effort to help students by making his OWN study guide for students. I believe this is exactly what students want.

I learned more in TA sections than in lecture.

Helped us a lot, covers everything that goes on in the lectures

Too harsh on grading.

N/A

The TA is very helpful. He is really able to break down the material for students. He also answers the questions with ease. He is confident. It helps me a lot knowing that he knows his material really well

Super good TA

The TA was great. He is truthfully the only way that any of the material makes sense and the way I am passing the class.

Connected more with the TA's teaching methods.

One of the best ta i had so far. Very understanding of the difficulties students had with the class and goes over problems that are helpful for test.

William was a great TA. Always more than willing to help when students had questions.

Really good job!

The study guide he put together is very helpful.

Discussions were the only time I actually learned stuff.

N/A

None

I appreciate the time our Professor's T/As take to explain any questions we might have had from the homework or from lecture. Will was a really knowledgeable T/A and helped out a lot during section reviews.

None

none

William Volckmann is the best TA in the Econ department if not the best TA at UCD. He was my TA last year and I switched my section so that he could be my TA again. He has a deep understanding of the material and can clarify things very easily. I think that the fact that he double majored in math and Econ in undergrad has helped him with this. He can explain what goes on behind each calculation because knows his math, stats, and Econ so well. UC Davis made the best decision when admitting him to the graduate program and they should look forward to him, hopefully, becoming a UCD professor someday.

No complaints. I went to the other TAs section earlier in the quarter and Volckmann was infinitely more helpful. Just his overall teaching method, attentiveness to students, and capability was much better. Good work.

yes

This dude should be teaching the class, he's funny, engaging, and has both a firm grasp on the material while being able to teach it in a very effective manner. Possibly one of the best TA's I've had. He is the reason I made it through this class.

The TA definitely made this course significantly better and should go into teaching as he is very good at it.

Discussions were SO helpful. He always explained the material very well.

Best TA ever!

William is one of the best TA's I've had. I looked forward to going to his discussion because he summed the course in a manner that made it much more understandable. Many of his discussions were useful for both the homework and the exam.

Great TA. Helped a lot

Not a single complaint to offer. Best TA I could've asked for.

William is an excellent teacher. His explanations are always clear and concise. He ensures that all questions that students have are answered by the end of the discussion section. William also goes the extra mile by guiding students towards the answers, rather than giving it away in order to help us internalize and learn.

One of the best TAs I've ever had. Is very knowledgeable and great at explaining the material, is very good at clarifying any questions we may have.

He is great!

Discussions often helped me much more than lecture in getting a clear understanding of the subject material

TA was great in class, very receptive to students needs and was always there to help supplement defects from professor's lecture (there were many). He was always willing to help us understand the exceedingly difficult homework. Just wish he would have been available to answer questions via email, as I have a very tight schedule as well.

very good

With five people, there weren't enough people to have much discussion in the end.

William Volckmann is the best. He is really funny and makes discussions much more interesting. He is an approachable person and is always there to help!

Very good!

He's great

N/A

Loved the class, kinda difficult but definitely solidified that I wanted to pursue something in the economics field.

No complaints. William did a good job teaching and making lecture information more understandable.

Hecka good TA

Overall an amazing TA that was super helpful.

The slides in the book were more helpful than the ones in lecture so I would suggest using those in class to present the material instead.

can you solve all the questions

I enjoyed discussion and thought it helped a lot. My only complaint was that the conversation could have been structured more to involve the students in a way that would encourage participation.

Overall really nice TA

The best TA I have ever had! He goes above and beyond for his students. I can't say enough nice things about him. You're the best, William!

very nice and always willing to help, good at explaining material

William is a good TA, and works well with Madhav. No complaints from his discussion sections, all of the problems and content we covered was relevant for the exam preparation.

Great guy with great understanding of the questions and material students have and need to succeed in the class. Although he completes the lecture a little early, I enjoy having time to ask any questions about the upcoming homework. Overall, a great TA

This TA section was far more productive than the lectures themselves. Would rather have you as the professor

he is super helpful... maybe even more than the professor herself

The TA is really clear on helping us some problems on HW and exams. He has his own website which provide useful handout and practice problem.

He is enthusiastic and passionate. Very clear with course materials.

Lecture could be streamlined, it would improve learning.

Sitting in silence is painful. We just want to learn and go home. Its late, people dont have energy. If you pick up the pace people may be more engaged.

He was the best TA I have ever had. Very knowledgeable of the subject matter and very helpful and easy to approach during office hours. He really helped reinforce what we in class.

N/A

William was a great TA! He definitely knew his stuff and answered all of our questions. Any confusions we were left with in lecture he was able to clear up.

Discussion really helped me understand the material better.

Great TA! Posted all his section notes on his website that allowed you to catch up on your work in case you miss section for one week

The TA was very good at breaking down problems and explaining the implications beyond the math.

The discussions are always well prepared; he is really friendly and willing to help with all questions I have. He is also really patient and has solid knowledge of the class.

I should say thank you to the TA William because of his efforts for the discussion class i did a better than quiz 1. Best TA

I really liked that he jumped between slides and a page for him to draw graphs along with us.

When I had a problem, I always emailed to him then he responded of my email very quickly and every time helped

Loved this course! Wish I could take another course with Muehlegger!

His website (with sets of practice problems) and his discussions (where he goes through problems and clearly explains how you do them) are incredibly helpful to understanding the material of the course! Great TA.

Overall, the TA did a very good job. Maybe during the discussion sections, go over some of the problems that were posted on their website.

William was a very helpful TA who covered really relevant topics and information in discussion. He was very open to questions and gave loads of help for homeworks.

Overall, TA William has been a great help to me academically and is fairly easy to talk to. He explains all concepts clearly and always checks for understandings.

William is literally awesome.

William is a good TA! He is really helpful at discussion and I learned a lot.

Good

I have never seen a TA to put in so much effort as William, he is by far the best TA and i wouldn't have survived the summer course without him. If he was annoyed with the million questions, he did not show it. William was very patient and explained everything in great details and walked us through the exercises. He stayed in the session until he made sure that every student left the session confident knowing the program and the problems. He was amazing!

William always responds to emails right away with clear answers/explanation, as he's always there for help. He's a great TA!

N/A

Honestly, I think this class should be mandatory for the major. Nothing is worse than the impact of people who don't know how to read data properly

Great lecture! He answered every question efficiently and with patient.

had amazing supplementary materials

BEST TA I HAD EVER HAD. GIVE THIS MAN A RAISE. Super helpful, patient, and supportive and cares about his students. Responds to emails almost immediately.

Ta William is a great TA. He explained material very clear. His discussion section is very helpful!

I found William's slides to be very helpful, and he was very good at explaining the material in a way that was comprehensive for the students.

William was very helpful in discussion because he answered our questions, was friendly, and helped us prepare for the exams well.

William is an excellent TA and always professional.

The TA taught well.

William was a great TA because he presented information very clearly, offered some background and foundational theory from class in addition to going over the practice quizzes. He was very helpful and responsive to questions.

It would be nice if students could access course materials directly through Canvas.

This class is wonderful. Some people do not like it because the quizzes are hard, but if you put in the work it is such an interesting class. Both my TA and the teacher are great teachers.

Breaks down problems into steps and goes through each step thoroughly.

N/A

NA

William is THE BEST. His OH are SO helpful. He explains everything thoroughly, he provides recordings and gives practice questions with answers. He is by far one of the best TAs I've had. I don't like the grading by the other TA, I don't think it was very fair, but oh well. William was great!!!! (:

good

The professor and the TA are excellent and I loved them. I would take them again in a heartbeat. Class's content is super interesting and makes me more interested in the topics and instigates critical thinking about everyday things. 10/10 would recommend the class, TA William and Professor,

Will is by far the best TA I have ever had the privilege of knowing. His ability to thoroughly and effectively answer my questions has significantly helped me in this course. He's a really good TA and is very responsive during his office hours and through email. He puts in significant effort during his discussions and often times the best person to go to when I have a problem. I think without Will's help as a TA I would have failed this course.

Professor Bonanno did a very good job in explaining the subject. However, his weekly quizzes are very challenging and makes students struggle under a time limited circumstances.

Thanks William for all the help. Trust me doing this class a second time was more interesting with a better TA and the online version just made it simpler and understandable. Appreciate it.

I've had William as a TA for three of my classes now. I just want to say he is honestly the best TA in the entire economics department. Extremely informative during discussions, fast at responding to emails, and makes concepts easy to digest! I will miss you very much.

Very helpful and takes the extra mile to make sure we understand material.

N/a

n/a

Thank you and please keep your teaching style!

I've had William twice now and he is by far the best TA I've had at UC Davis. He explains things thoroughly and goes through the math step by step, which is something that many professors don't do.
